

Homemade Play Dough

Mix in a medium-sized pot:

1 c white flour

¼ c salt

2 tbsp cream of tartar

Combine and add:

1 c water

2 tsp vegetable food colouring

1 tbsp oil

Cook over medium heat and stir.

It will look like a gloppy mess.

When it forms a ball in the centre of the pot, turn it out and knead on a lightly floured surface.

Store in an airtight container.

I have, in the past doubled, tripled and quadrupled the recipe. It just requires more 'elbow grease' during mixing and kneading.
